Channel 5	DI for Acoustic Guitar	
Channel 6	Vocal mic, SM 58, boom stand	
Channel 7	Percussion XLR cable, +48v phantom power	WE supply mic and stand
Channel 8	Percussion XLR cable	WE supply mic and stand
PA		
We will need 4 X foldback mixes, a buzz and hum-free desk operated by the supplier and one, good quality and unobtrusive reverb unit.		
Lighting		
A mix of overhead and side lights. The only thing we insist on for this show is that we do not want follow-spots in our eyes. We do not run a lighting spec for this show however we have a programmed back projection Powerpoint show that accompanies the songs. It is available at no extra charge if you have a projector bright enough to cope with a theatrical show and an interface for a pc or mac.
